OLD BUSINESS

NEW BUSINESS

a) Site(s) Demo

Max Schonberg demonstrates the updated WinGIS mapping applications. Prior to beginning Mr. Gregg informs the committee that, though the intention was to leverage Experience Builder for some of the WAN maps, that plan has been updated to feature only Max's custom maps. As in the past, a notice is placed on the websites notifying users of the update. And, WinGIS offers training in advance of the launch date for any member agencies interested.

a) FY '26 Budget Draft

Mr. Gregg presents a draft of the WinGIS FY'26 budget. The significant difference in this year's budget is that there will be 4 full time employees billing to WinGIS. In the recent past it has only been 3, with former R1 employee Gracey Garner, billing some of her time to WinGIS. The budget could also change if the committee decides to increase the frequency of the aerial photography captures. Mr. Gregg mentions though, that if the committee were to decide to keep the frequency the same, but increase the resolution, there is enough money in the WinGIS cash reserve to account for the cost increase.

Then, in future budgets, the annual allotment would reflect the updated costs/year for the new image resolution.
